NEW "ERA"

TAILORS.

The old adage-Great Oaks from little acorns grow applies directly to us—and to our marvelous success and widespread popularity among the Clothing buyers of the entire District. We had to crawl before we could run—but in crawling we satisfied every buyer and that buyer brought to us his friends. It requires energy, progression, courage and indomitable pushing, business methods to create such a great commercial triness methods to create such a grand commercial tri-umph—a business founded on truthful representations —unimpeachable integrity regarding every price quoted and always giving the fullest measure of worth, flawless fabrics, style and perfect tailoring its possible to put

THROUGH MARYLAND

Reviewing the Political Situation in the Counties.

INDICATIONS FAVOR REPUBLICANS

Factors Entering Into the Calculations

DOUBTFUL DISTRICTS SHOWN

BALTIMORE, October 31, 1895.

Next in interest to the election of the

It has to perform.

The state senate is composed of twenty-sky members, one from each county and three from Baltimore city. Of this pody twelve are now in office, holding over the county of the whole business.

Fighting Chance for Republicans. Fighting Chance for Republicans.

The house of delegates is composed of ninety-one members, chosen according to population from the city and the counties. In the election of the important offices above indicated each member of the house

Wicomico county is the home of ex-Gov. Eilhu E. Jackson, who is the democratic candidate for the state senate. It is realizable theorem with the state senate it is control of the state senate it is control of the state of the state senate it is control of the state of the state

Somerset.
Somerset county is the home of Congressman Joshua W. Miles. It is one of the "black counties" of the state and goes democratic only when the republicans are divided, and the democrats use large sums of money, and not always then. This year the republicans are united, while the democrats are divided, and Somerset will probably go republican by a good majority.

Talbot.

Talbot county is the home of Senator Charles H. Gibson. Both parties claim it, but the best advices give it to the democrats by a small majority. It is one of the black counties, but the blacks of Talbot are uncertain and often sell their

lican by a small majority.

Queen Anne county is safely democratic at all times by a large majority. This year, however, it has been distracted by a factional fight, as a result of which ex-Congressman John B. Brown and ex-State Treasurer Edwin H. Brown are taking no interest in the campaign. The democratic ticket will probably get a small majority.

Kent.

Kent county is the home of Controller
Marion de Kalb Smith, who is a candidate for re-election for a third term. It is very close, and this year the most careful estimates place it in the republican column.

Cecil county is the home of Mr. Charles Cecil county is the home of Mr. Charles C. Crothers, the democratic nominee for the attorney generalship. Mr. Crothers is at present a hold-over state senator from Cecil, and should he be effected he will be obliged to give up his seat in the senate. He has not as yet resigned and this is regarded as most significant of the critical situation in Cecil. The county is sordinarily democratic by majorities ranging from the to 36s, but this particles are proposed to the particles of the particles of

stantial majority. The county is normally democratic by from 999 to 1,500 majority, but according to conservative estimates the county will go republican this year, as it did two years ago and last year.

Baltimore.

Baltimore county the wealthiest and most populous county in the state (containing, as it does, the suburbs of Baltimore city), has a normal democratic majority of from 1,009 to 3,000. In the congressional election last year it gave Mr. Tabott, the cemecratic nominee for Congress, a majority of 700. This year the party is completely broken up by factional fights, prominent democratic have announced their intention democratic have announced their intention have taken the stump against Hurst. The democratic leaders claim the county by 1,000, which the republicans do not concede, and the most reliable judges place the county in the doubtful column. Remnesses

OD SILSMA 55c.

PERCALINE Tic.

LININ CANVAS. 95c.

LININ CANVAS. 95c.

PLAND LENG. 55c.

PLAND LENG. 55c.

CAMBRIC. 75c.

HAR CLOTH, 45c.

Carroll county has an average democratic

majority in state and county elections of 400. Lest year it was carried by the re-publicans in the congressional election by 250 majority, and this year the leaders of both parties agree that the outlook is doubtful.

Frederick county, the home of Colonel Lewis Victor Baughman, usually goes re-publican, the majorities ranging from 200 to 700. The republicans claim the county for Lowndes by 1,300, while the democrats concede them 800.

Washington.
Washington county goes republican in state and county elections oftener than democratic. This year the democrats admit that Lowndes will carry the county by 500 majority, while the republicans claim fully 1,200. Allegany.

Both democrats and republicans admit that in Allegany county, the home of Mr. Lowndes, the republican state and local tickets will receive good majorities. Mr. Wellington carried the county in the con-gressional election last year by 1,600, and the county is generally conceded to the re-publicans by at least 1,500. Garrett.

It is claimed by the republicans and conceded by the democrats that in Garrett county the republican state and county tickets will be elected by at least 500 ma-

Montgomery.

Montgomery.

Montgomery county, the home of Chairman Taibott of the democratic state commerce, is claimed by that gentleman for Hurst by 5%. The republicans, however, dispute this claim.

Aune Arundel.

Anne Arundel is one of the most uncertain counties in the state. It generally goes democratic, but occasionally goes republican. It is the most corrupt county in the state, and at least one-third of its voters cheerfully sell their votes.

The democrats are in bad shape this year, wille the republicans are united, and both sides claim the county and it is difficult to estimate the result.

Howard.

Charles.

In Charles county both parties are disrupted over the court house question, but the chances are that the republican state and local tickets will be elected by from 390 to 500 majority. This county is in the black belt.
